Pocketstudio 5 Manual Addendum

Mac OS compatibility
Pocketstudio 5 is compatible with Mac OS 9.1, 9.2 with version 1.01.
Pocketstudio 5 is compatible with Mac OS 9.1, 9.2, 10.1 and 10.2 with version 1.13.

Recording two tracks simultaneously
Pocketstudio 5 has two quarter inch inputs on the front panel labeled INPUT A and INPUT B.
You can record two tracks at a time using both inputs. To do this you must record to tracks 1 and
2 or tracks 3 and 4. No other track combinations are possible.
1. Press and hold down the INPUT A and INPUT B keys.
2. With the INPUT A and B keys being held down, press either the REC READY 1 or 3 key.
    Pressing the REC READY 1 key assigns INPUT A to track 1 and INPUT B to track 2.
    Pressing the REC READY 3 key assigns INPUT A to track 3 and INPUT B to track 4.
3. After assigning the inputs to tracks, use the REC READY keys to arm the proper tracks.
