## Checking the application version

---

Confirm the application version of your TASCAM Hi-Res Editor before updating it.

1. Launch TASCAM Hi-Res Editor.
2. Opens the menu "Help" → "About" → "This application".
3. Check the "Version" (application version) shown at the "About this application" screen. If the application version shown here are the same or newer than the application version that you plan to update to, then there is no need to update the application.

---

## Application update procedures

---

For your procedures to update application, please refer the "TASCAM Hi-Res Editor installation guide".

The "TASCAM Hi-Res Editor installation guide" is downloadable from the TEAC Global Site (<http://teac-global.com/>), as well as included in the TASCAM Hi-Res Editor application installer.
